

MAXI-FLEX PVC

LIGHT AND FLEXIBLE PVC HOSE

Maxi-Flex is the industry's original lightweight PVC suction-only hose, designed for optimal performance and ease of use. Its special corrugated PVC exterior ensures maximum flexibility and a smooth waterway for superior flow. The unique design features clear flexible PVC between the helix ribs, allowing full visibility of the water, while the distinctive black helix ribs provide excellent UV protection. Lightweight and ultra-flexible, the Maxi-Flex Hose enables one-person hookup operations with extruded aluminum reattachable, bolt-on couplings. Perfect for suction-only applications, it effectively handles full-vacuum conditions, making it ideal for drafting from any rural or municipal non-pressurized water source.

TEMPERATURE RANGE: -10F to 158F (-23C to 70C)

COUPLINGS: Expansion rings on 2-1/2". Reattachable bolt-on couplings on 4" through 6".

HOSE COLORS

Black
