

Manufactured in a similar process as TPX[™], ATX[™] utilizes a 3-ply design where the cover and liner are extruded independently and double vulcanized to guarantee a consistent, compact hose wall. The polyester reinforcement can then be woven tighter, making this hose more resistant to puncture while also being easier to pack and store. ATX[™] has a stronger jacket which increases the service test pressure of the LDH sizes to 300 psi (2068 kpa).

FEATURES

- 3-ply rubber municipal fire hose with both the cover and liner made of heavy duty nitrile rubber, high tensile strength tightly woven polyester reinforcement for maximum durability and flexibility.
- Smooth liner keeps friction loss to a minimum for greater flow.
- Nitrile rubber cover greatly increases abrasion resistance, provides long service life, and the tightly woven reinforced jacket resists punctures.
- Remains flexible at temperatures as low as -40°F (-40°C) and is resistant to ozone, oxidation, and most chemicals and petrochemicals.
- Engineered to meet the requirements of high pressure applications. Designed for relay pumping, pressurizing standpipes, and sprinkler systems.
- Manufactured in accordance with NFPA 1960 standard, latest edition within our ISO-9001:2015 certified quality assurance system.

HOSE COLORS

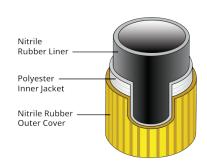

SNAP-TITE ATXTM

HIGH PRESSURE NITRILE RUBBER ATTACK/SUPPLY HOSE

HOSE COLORS

Yellow

*Additional colors available upon request.

TECHNICAL DATA & INFORMATION						
Model	ATX TM					
Basic Construction	Heavy gauge 3-ply Nitrile rubber cover/liner with polyester inner jacket.					
Application	Attack, Supply					
Colors*:	Yellow					
Temperature Range	-40° F - 200° F					
Testing Pressures:						
Service	300 psi					
Proof	600 psi					
Burst	900 psi					

SNAP-TITE ATXTM

HIGH PRESSURE NITRILE RUBBER ATTACK/SUPPLY HOSE
