

NATIONAL ADVANTAGE™

POLYESTER DOUBLE-JACKET SUPPLY HOSE

The National Advantage hose was designed to flow a serious amount of water without sacrificing performance. This rugged hose is a municipal grade double jacket EPDM rubber line with a durable outer polyester jacket providing incredible strength and long-lasting performance. Our National Advantage treated with our exclusive Dura-Cote™ abrasion resistant treatment provides the durability you need. The result is a tough, double jacket woven hose weighing a lot less than other LDH hose and packs tighter, requiring less hosebed space.

FEATURES:

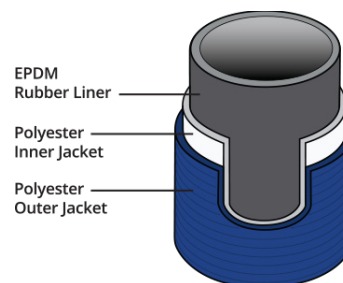

Sturdy: Double jacket, rubber lined hose made from 100% high tensile strength ring-spun polyester yarn with a lining of extruded EPDM.

Reliable. The outside jacket utilizes a tight weave that is less likely to “catch” while dragging through the site and also helps to reduce kinking at low pressures, keeping the flow constant.

Extra Durable. Our Dura-Cote™ treatment greatly increases abrasion, heat, flame and petrochemical resistance while virtually eliminating water pick-up.

Flexible. Hose remains flexible to temperatures as low as -40°F (-40°C) and is highly resistant to ozone and oxidation.

Certified. Manufactured in accordance with NFPA 1961 Standard, latest edition within our ISO-9001:2015 certified quality assurance system.

CONSTRUCTION

Polyester Double Jacket
EPDM Rubber Inner Liner

TEMPERATURE RANGE

-40° to 150°F (-40° to 65°C)

COATING

Optional Dura-Cote™

COLORS

HOSE SIZE	SERVICE TEST PRESSURE	PROOF TEST PRESSURE	BURST TEST PRESSURE	COUPLING BOWL SIZE	WEIGHT PER 50' UNCPLD
INCH	PSI	PSI	PSI	INCH	LBS
4"	300	600	900	4-17/32"	46
5"	300	600	900	5-5/16"	53

As per NFPA 1961 – The service test pressure is to be 10% greater than the “normal highest operating pressure” at which the hose is expected to be used.

TYPE	HOSE ID	BY	HOSE LENGTH	COLOR	COUPLING SIZE	THREAD TYPE	COUPLING MATERIAL
NA	40 = 4"	X	50 = 50'	Y = Yellow	40 = 4"	N = NH	Aluminum
				R = Red			
				B = Blue			
				O = Orange			
				G = Green			
	50 = 5"		100 = 100'	T = Tan	45 = 4 1/2"	I = IPT	
				C = White (coated)	50 = 5"	S = Storz	

Part No. Example:

NA | 40 | X | 50 | Y | 40 | S | |

NA40X50Y40S = NH National Advantage Hose, 4" ID by 50' Length, Yellow, 4" Storz Aluminum Coupling
