

8D

POLYESTER DOUBLE JACKET EPDM LINED HOSE

Our 8D hose is an industrial grade double jacket hose with a lightweight EPDM rubber liner. The outside jacket utilizes a tight weave that is less likely to “catch” while dragging through a worksite and also helps to reduce kinking at low pressures, keeping the flow constant. 8D also has a wide temperature range and is capable of being used at a mine in Alaska or a construction site in Arizona.

FEATURES AND BENEFITS

- Double jacket, rubber lined municipal fire hose made from 100% high tensile strength polyester yarn with a lining of extruded EPDM.
- Optional Dura-Cote treatment greatly increases abrasion, heat, flame and petrochemical resistance while virtually eliminating water pick-up. When treated, 8D is protected from mildew and no drying is required.
- Hose remains flexible to temperatures as low as -40F (-40C) and is highly resistant to ozone and oxidation.
- Kink resistance exceeds that of light-weight jacketed hose.
- Manufactured in accordance with NFPA 1961 standard, latest edition within our ISO-9001:2015 certified quality assurance system.

CONSTRUCTION

Polyester double jacket EPDM

TEMPERATURE

-40°F to 150°F (-40°C to 66°C)

COUPLINGS

Aluminum or Brass NH/NST or IPT Threaded, Aluminum Storz

COLORS

HOSE SIZING AND SPECIFICATIONS

SIZE	SERVICE PRESSURE	WORKING PRESSURE	BURST PRESSURE	WEIGHT (PER FT UNCOUPLED)	FLAT WIDTH	CERTIFICATION AVAILABLE
IN	PSI (kPa)	PSI (kPa)	PSI (kPa)	LBS (KG)	IN	
1"	400 (2758)	400 (2758)	1200 (8274)	0.26 (0.12)	2.10"
