

Snap-tite Hose has been an integral partner to firefighters for over 50 years.

Manufacturing started in Union City, Pennsylvania and we continue to produce hose in the United States, still to this day. Our pride is in our ability to continue on the tradition and the legacy started decades ago while keeping our manufacturing and production facilities in the United States of America.

Our products are a direct reflection of our commitment to making the fire industry safer.

Our employees go out of their way to truly innovate, create, and manufacture products that are durable, dependable, and safe for the user. We have such commitment to our products that we have employees with us that have been working for Snap-tite Hose for 40+ years.

THE SNAP-TITE HOSE WARRIOR: YOUR LIFELINE IN THE FIGHT

The water that runs through the hose is the reason you can accomplish your mission. Hose burn through can be catastrophic and can leave you and your team trapped, fighting for your lives.

Facing this problem, the Snap-tite Hose design team set about rethinking the solution. Our team turned to material technology new to hose construction to design a next generation attack fire hose that can take the heat.

The Snap-tite Hose Warrior is in a class all its own. The Warrior can withstand the heat for over 40 minutes in both conductive and radiant heat load testing. These high performance standards make it the best attack hose to stand up to the most dangerous, intense fires that occur more and more frequently.

UL-19 SPECIFIED RADIANT AND CONDUCTIVE TESTING CONFIRM SNAP-TITE HOSE WARRIOR CAN WITHSTAND >15MIN OF HEAT EXPOSURE WITHOUT FAILURE.
*STOPPED TESTING WITHOUT FAILURE

Hose Manufacturer	Hose Type	Hose Diameter	Conductive Heat Test Exposure Duration	Radiant Heat Test Exposure Duration
Snap-tite Hose	WARRIOR FWN	1-3/4"	41 min	41 min
Snap-tite Hose	Warrior FWN	2-1/2"	41 min	41 min
Key	Combat Ready	1-3/4"	18 sec	2 min, 30 sec
Mercedes	Kraken EXO	1-3/4"	15 sec	1 min, 25 sec
NAFH	D-Bak	1-3/4"	20 sec	2 min, 29 sec

THE SNAP-TITE HOSE WARRIOR

FEATURES

- 1-3/4" diameter 50-foot length, 1.77" or 1.88" waterway attack hose
- Warrior now also available in 2.5"
- NFPA red, yellow, green, orange and blue DURA-COTE coating
- Snap-tite exclusive 3-year All-Hazard Warranty
- Complementary factory inspection after a fire-rescue event
- Complementary subscription to Hose Record Vault for product service history tracking

BENEFITS

- Superior flow performance at low, medium, and high flow systems
- Superior abrasion resistance (91,500 + Taber abrasion cycles)
- Superior doorway kink diameter (24 inches)
- Best-in-class conductive heat test results - 41 minutes with **NO FAILURE**
- Best-in-class radiant heat test results - 41 minutes with **NO FAILURE**
- Designed with structure fire suppression situations in mind
